RAVELNIK – IN THE SHELTER OF MOUNTAINS

.....

Along the organized circular path of the outdoor museum on a minor elevation near Bovec, surrounded by mighty mountains where the Austro-Hungarian first line of defence under Mt. Rombon resisted the Italian attacks, we shall discover the numerous remains and heritage from a hundred years ago. A genuine display of the surviving machine gun emplacements, caves, pillboxes, cabins, trenches, etc., now interlaced with lush nature, will put us in direct contact with the memory that is inherent to this landscape.
